Natural Art Duo 256

Natural White, 100% Pulp

Product Description

This Inkjet paper is specifically designed for commercial photographic imaging applications and the production of photographic presentation portfolios. It meets the highest standards for photographers, photo artists and graphic designers who demand a wide variety of media with an extraordinary level of detail, visual impact and colour fidelity. Natural Art Duo has a smooth natural white matt surface that replicates the colour of fine art papers. This high-quality paper is double side coated.

Applications and Characteristics

The printable side of this paper provides excellent image sharpness and optimum colour graduation. The coating also offers a very high level of water resistance. Common applications include: Photographic and fine art reproduction, business cards, greeting cards, certificates and bookmaking. It is also ideal for computer generated artwork.
